Data Analyst with dual MS degrees in Applied Statistics and Applied Mathematics and 8+ years of experience transforming complex datasets into actionable insights. Proven track record building BI dashboards, statistical models, and automated pipelines across higher education, healthcare, and industry. Co-authored 8+ peer-reviewed publications (2024–2025), including a study in *Nature Mental Health*. Proficient in R, Python, SQL, Power BI, and Tableau; experienced with large-scale data (20GB+) and cloud platforms including Azure and AWS.

EXPERIENCE

Data Analyst (Institutional Research & Biostatistics)

Dec 2024 – Nov 2025

University of Wyoming

Laramie, Wyoming

- Built Power BI and R dashboards tracking research proposals, awards, funding, and student success metrics – enabling data-informed decisions for university leadership.
- Applied Prophet time series modeling to indirect cost data, supporting financial forecasting and strategic resource allocation.
- Conducted regression analysis benchmarking UWyo's R&D standing against peer institutions; evaluated PI-level ROI by linking FSU allocations to actual award returns.

Data Analyst

Sep 2023 – Nov 2024

Louisiana State University Health Shreveport

Shreveport, Louisiana

- Analyzed large clinical datasets across 8+ research studies; served as lead analyst on a study published in **Nature Mental Health**.
- Developed a bioinformatics (metabolomics) data pipeline reducing per-dataset analysis costs by \$20,000.
- Delivered statistical reporting and visualization for multidisciplinary research teams spanning addiction, cardiovascular, and stroke research.

Graduate Research & Teaching Assistant

Aug 2021 – July 2023

New Mexico Institute of Mining and Technology

Socorro, New Mexico

- Supported teaching of undergraduate and graduate statistics and mathematics courses; assisted with course design and student assessments.
- Conducted independent research in operations research and statistical modeling as part of MS Mathematics program.

Senior Data Analyst / Data Scientist

Dec 2018 – Jul 2021

Insightin Technology Bangladesh Ltd.

Dhaka, Bangladesh

- Engineered an automated Python data quality pipeline processing ~20GB of data, cutting runtime from 3 hours to 15 minutes – a 12× speedup – with accurate PDF report generation.
- Applied NLP sentiment analysis to large-scale customer feedback, identifying dissatisfaction drivers and contributing to a 5% annual revenue increase.

Early Career Data Roles

2016 – 2018

Innovision Consulting & Therap BD

Dhaka, Bangladesh

- Data management in R and SurveyCTO; real-time Power BI survey monitoring; SQL analysis and BI dashboard QA.

FREELANCE CONSULTING

Statistical Consultant (Upwork / PeoplePerHour)

July 2013 – July 2021

Statistical analysis, BI dashboards, and data modeling for 193 international clients

Remote

EDUCATION

New Mexico Institute of Mining and Technology

Socorro, NM

MS Mathematics (Operations Research & Statistics)

July 2023

University of Dhaka

Dhaka, Bangladesh

MS Applied Statistics | BS Applied Statistics

Dec 2015 | Dec 2013

SELECTED PROJECTS

Intrusion Detection in Industry 4.0 using Machine Learning (2023)

- Developed Random Forest and SVM classifiers on IoT/IIoT telemetry data; Random Forest achieved 99.4% accuracy, providing a robust anomaly detection framework for industrial systems.

NLP: Sentiment Prediction on Customer Reviews (2022)

- Compared LSTM, CNN, and CNN+LSTM models in Python for multi-level sentiment classification of product reviews; CNN achieved 91.5% accuracy (binary) and CNN+LSTM 73.4% (3-class).
- Designed an interactive Power BI dashboard to visualize sentiment trends, model outputs, and customer dissatisfaction patterns – enabling non-technical stakeholders to act on insights directly.

SKILLS

Analytics & BI: Power BI, Tableau, Excel, OBIEE 12c, R (ggplot2, Shiny), Python (pandas, matplotlib, seaborn).

Data & Engineering: SQL, SQL Server, PySpark, Azure Blob Storage, AzureML, AWS, Google Colab.

Methods: Regression, Time Series (Prophet), Clustering, NLP, Propensity Score Matching, Survival Analysis, A/B Testing.
